

Newsletter

Spring Greetings from Prospect House

As our first newsletter of 2024, we would like to take this opportunity to thank you for all your Christmas wishes, cards and gifts. We feel very lucky to get such kind messages of support and appreciation from you, not just at Christmas but all year round too.

We hope you and your pets are enjoying the prospect of milder weather and lighter nights.

Spring and particularly Easter can provide our furry friends with many **opportunities for mischief**.

Spring Hazards

For tips on how to keep your companions safe look out for posts on our [Facebook](#) and [Instagram](#) pages, or head to our website by clicking the button below.

Spring hazards advice

You will also find our **Easter opening hours** on the [website](#) and details of how to get emergency care for your pet over the Bank Holiday.

Please remember to **check supplies of ongoing medications** in advance of the Easter break and give us 48-hours notice for any repeat prescription orders.

Prospect House turned 39!

In February we celebrated the 39th birthday of Prospect House with the team enjoying pancakes and cake together.

The practice has grown and developed a huge amount over those 39 years, but we are proud to keep the family feel in our close-knit team and to maintain the same goal of providing outstanding care to your pets.

Planning is already underway for how to mark our 40th birthday next year!

Watch our [Facebook video](#) of the team celebrating our birthday!

Dental awareness

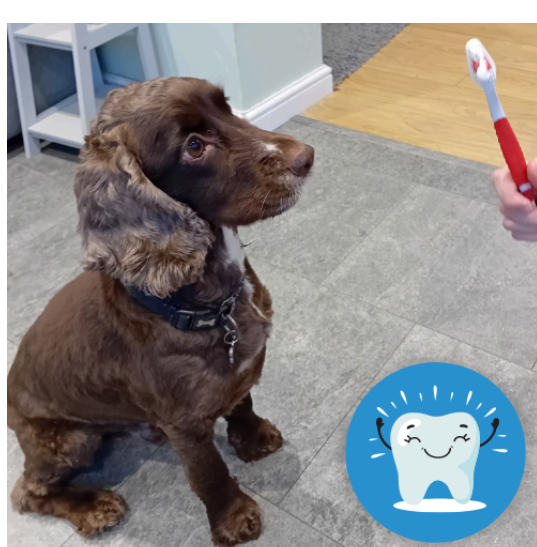

During February we also highlighted **Pet Dental Awareness Month**.

We hope you managed to take in the information displayed in our waiting room and featured on our social media pages.

Our staff pets certainly enjoyed the chance to show off their beautiful teeth to you in our social media posts!

A healthy mouth is very important to our companions in their day-to-day life and dental disease can have a big impact on their general health.

Our vets like to take the opportunity to check the mouth of your furry friends on most visits, including during their routine vaccination health checks.

If you are concerned that your pet may be having problems with their teeth, please book an appointment [online](#) or call the practice.

We value your feedback

We have lots more useful information and interesting cases to share with you on our social media pages, so look out for our posts in the coming months.

If there are any topics you would like us to cover or if you want to share the experiences of your own pets in the practice, please get in touch via email mail@prospecthousevets.co.uk or our [website contact form](#).

We always value **your feedback** so are happy to hear from you with any comments you have on the service we give to you and your pets.

Wishing you and your pets a happy and safe springtime.

Best wishes,

From all at Prospect House
